This is a non-comprehensive list of the most common alloys we stock.

Remelt Sources, Inc. is a family owned, **100% Independent** producer of specialty alloys. We have been supplying the Precision Investment Casting Industry since 1982. Our chemical analysis laboratory is NADCAP accredited, ISO/IEC 17025 and ISO9001:2000. We combine high quality products with flexible, creative service and we support your business. Please call us today for a quotation on your critical alloy needs. **We love a challenge!!!**
